GREENE—Jerome L. The President, the Board of Trustees and entire Montefiore Medical Center community deeply mourn the death of our dear friend and supporter, Jerome L. Greene. A devoted and active trustee since 1972, he had an extraordinary impact on the quality of health and life of thousands of Montefiore patients and residents of the Bronx and Westchester. Combining his skills as a lawyer with his belief in Montefiore as an instrument of social responsibility, he led the medical center in the founding, 18 years ago, of the Moshulu Preservation Corporation, a nonprofit community development support corporation that has, with his guidance, saved housing, revitalized neighborhoods and created innovative projects such as moderate income housing, a community newspaper that serves 15,000 households, the first in the city, business improvement district sponsored under the auspices of an academic institution, a vast program of graffiti removal and a youth job training program—all of which have played a role in the Bronx's nationally recognized resurgence. He believed in the crucial role of academic medical centers such as Montefiore in advancing the health of communities through research, education and provision of high quality care, and with his beloved wife, Dawn, he helped Montefiore create the Jerome L. and Dawn Greene Medical Arts Pavilion, a state-of-the-art building that opened in 1997 offering a full range of general and specialty services in an ambulatory care setting. More recently, he and his wife have been generous benefactors of The Children's Hospital at Montefiore, scheduled to open in 2001. In 1991, at its annual Celebrate Montefiore dinner dance, the medical center honored this remarkable man of vision and commitment for his exemplary stewardship. This year, Montefiore nominated him for the United Hospital Fund's 1999 Distinguished Community Service Award. The medical center has lost one of its greatest friends. We extend our heartfelt condolences to his loving wife, Dawn, and their entire family.

GREENE—Jerome L. The Directors and Officers of Moshulu Preservation Corporation (MPC) note with profound regret the passing of our founding Chairman, Jerome L. Greene. Mr. Greene's foresight in founding MPC, Montefiore Medical Center's non-profit community development support corporation, has served the community and its health for 18 years. The establishment of MPC was rooted in Mr. Greene's strong belief that Montefiore's commitment to broader public health issues and its long tradition of social responsibility was directly related to neighborhood preservation. His generosity and hands-on leadership of the Corporation made possible the creation of solutions to major problems of community life. His vision helped form a national model for institutional participation in community development. His efforts will mean better lives for people for generations to come.
